High Prices for Fruit.

Although the fruit crop was unexpectedly cut short in California, growers are receiving such fancy prices that the year promises to be a very profitable one for orchtrdists. From the first strawberries and cherries have brought excellent prices, and now all kinds of fruit are bringing in handsome returns. Peaches are selling for $200 a ton and apricots for $300, and the canneries are paying figures they would have deemed impossible two or three seasons ago. So, it seems that a short crop does not always mean disaster to the husbandman.

The Stanford Club

The alumni of Stanford probably will show what Stanford spirit means in a big way in the next few years. The Stanford Club in New York has led off in the matter and alumni clubs elsewhere outside of the earthquake and fire districts will no doubt join in the movement to raise large sums for the restoration of certain buildings. The Stanford alumni body is still comparatively small and few of its members have been out in the world long enough to acquire much wealth. But they are liberal and they have the habit of doing the things they set about doing. The Stanford clubs in the various cities are not purely alum clubs. They have among their most enthusiastic members men who were not graduated. They add largely the club's capacity for giving.—Palo Alto Times.

MEMORY OF TURTLES.

Lay Their Eggs Almost In the Same Place Year After Year.

During the summer months from May to August the big sea turtles lay their eggs on the beach. They come possibly hundreds of miles, and if undisturbed will land within a few yards of the same place year after year. They crawl up the beach in the night and make their nest in the sand just above high water mark. I have watched them from behind a sandhill but a few feet away.

They dig the hole with their hind flippers, and after covering it over, first filling it with eggs, they will go a few feet and make another place, I always thought as a blind, for one looks just like the other. They lay each month, usually during the high tides of that month, beginning in May and ending in August, from 90 to 185 eggs.

During the summer I found and brought into camp 2,755 eggs. I put some in the sand near our camp, and in twenty-seven days the top eggs hatched, the rest in three days more. The little turtles would dig out, raise their little heads and sniff the air a moment, then start for the river, 100 yards away. It was always a mystery to me how a turtle could find the same place on the shore when a short distance out at sea it all looks alike—just sandy ridges, with scrub palmetto and coarse grass.—Forest and Stream.

ELECTION FOR BOND ISSUE.

The board of supervisors of San Mateo county will issue the proclamation calling an election for a bond issue for the rebuilding of the court house at their meeting on Monday. The amount of the bonds will be $150,000 and they will run for a period of forty years.

There is little doubt but that the election will carry by a large majority as a bond issue is the best way the money can be raised. The $150,000 which is needed for rebuilding the courthouse will require only a small tax if it stretches over a period of years and will be so lighta burden as to be hardly noticed by the taxpayers.

The supervisors are to be commended on their prompt action in thus settling what at first seemed a difficult problem for the people to face.

BURBANK, THE WIZARD.

Probably every one now knows the story of Burbank's early life and strug gles to earn a livelihood; how he started for California with practically no money and carrying ten of his own potatoes, and how he finally established himself as a nurseryman here. But few have followed Burbank's worl closely enough to realize the enormous possibilities of the Burbank potato. To quote from Mr. Harwood's chapter on this subject:

"The seventy-five per cent of the potato which consists of water may, from the manufacturing point of view, be considered as largely waste, or, if not waste, at least of no commercial value. Very much of this waste may be restored, negatively speaking, by driving out the water and putting starch in its place. Mr. Burbank' investigations have shown that it is as easy to breed potatoes for a larger amount of starch asit is to breed for any other characteristics—flavor, resistance to disease, withstanding draught, adaptability to a given climate, early or late maturing, and so on. In Europe the potato is practically the main source of starch supply Potato starch is of much importance to the manufacturer of cottons, woolens, silk and linens, as sizing for the warp before it is woven, for finishing the goods after they have been woven, bleached and dried, and, in the form of dexterine, as a thickener or vehicle for applying the color to a frabric. The dexterine is used a great deal also in the manufacture of mucilage.

"Important as is the work of Mr. Burbank in potato culture, both in its production and in the tests now under way for its transformation, it appears probable that it will be rivaled by the new fruit which grows upon th potato which Mr. Burbank has named the 'pomato.'

"Among all of his many interesting and novel creations this certainly takes high rank, not only for its novelty but for its practical value. Looking to the common origin of the tomato and the potato, and considering the keneral appearance of the new fruit, he has happily combined the two nam es in designating this new creation.

"The pomato is a fruit, not a vegetable, though growing upon a vegetable. It is what might be termed the evolution of a potato seed-ball. It first appears as a tiny green ball upon the potato top, and develops as the season progresses into fruit the size and general shape of a small tomato. The flesh is white, bearing usually, a few small seeds. It is delightful to the taste, having the sugbestion of quite anumber of different fruits and yet not easily identified as any particular one. It may be eaten either raw or cooked. It is fine eaten raw out of hand, delicious when cooked and excellent as preserve."—Argonaut.

Hay Receipts.

Receipts of hay for the week just passed have amounted to 2522 tons. This amount is about one thousand tons less than received the preceding week, and the reason that more hay did not come in was on account of the delay in transportation over the South ern Pacific lines. Hay that has been loaded at many points, is laying on the lines and at Oakland, and not sent forward to San Francisco. On one day this week there were only two carloads of hay came into the city. This deleyed, hampered and interfered with the trading during the week to a large extent, causing a thoroughly unsettled and unusual set of conditions here in the market.There has practically been no open market during the entire week, and prices are entirely unsettled. Just as soon as normal conditions of transportation again prevail, we expect to see a basis established for market trading.

Card of Thanks.

I desire to take this opportunity of thanking the many kind friends and neighbors who assisted during the illness and at the death of my beloved husband, Timothy O'Sullivan.

MRS. T. O'SULLIVAN.

PASSENGER RATES REDUCED

Sweeping reductions in passenger rates on all its lines in the west are announced by the Southern Pacific. In some cases the reductions will amount to as much as 25 per cent. The announcement was mae by Passenger Traffic Manager Fee.

It is believe that the reuction will mean an annual saving to passengers patronizing the Southern Pacific of from $500,000 to $1,000,000, although no official figures have been given out.

The reductions, which have been under consideration for some time, followed upon a traffic conference at Chicago of the Southern Pacific with Traffic Director Stubbs and Assistant Traffic Director McCormick. They will become effective July 1st. The purpose of this reduction, which effects a larger area and more miles of railway line than any change in rates ever before made by a railroad company, is development.

From Auburn, California to Ogden, Utah, along the main line of the Southern Pacific, the rates will be reduced from 5 cents to 4 cents per mile, in the mountainous and desert region as well as in the productive territories. In the mountainous region about Mount Shasta, from Redding to Oregon, rates will be reduced from 4 cents to 3 cents per mile.

Perhaps the most marked reduction is in Arizona and New Mexico, where, because of the light population, the rates, which have been 5 cents and 6 cents per mile along the main line, are now to be reduced to 4 cents per mile. Across the Colorado desert, from Banning to Yuma, the rates hav been 5 cents per mile, but under the new tariff will be 4 cents.

Hundreds of rates from San Francisco will be reduced. The fare between San Francisco and Los Angeles, where there is often a travel of 200 passengers per day, will be reduced from $15 to $14, and between San Jose and Los Angeles from $15 to $12.75. Fare between San Francisco and Santa Barbara will be reduced from $11.65 to $10.90. The fare between Sacramento and Los Angeles will be $13.45.

Reduction between San Jose and Santa Barbara will be from $11.65 to $9.65. In the territory between Paso Robles and Santa Barbara, along the coast line, including such towns as San Luis Obispo and Lompos, rates will be reduced some 40 per cent. Th maximum hereafter is to be 3 cents per mile. The fare between Fresno and Los Angeles will be reduced from $9.70 to $8.80; from Lathrop to Los Angeles the fare will be reduced to $11.70.

The fares from San Francisco to many points east of Auburn, north of Redding, south of Santa Margarita and south of Bakersfield, extending over into Arizona, will be lowered. No main line rate of the Southern Pacific will hereafter be above 4 cents per mile, and in all territories having any considerable population the maximum rate will be 3 cents per mile.

From its headquarters in Salt Lake the Oregon Short Line today announced that beginning July 1st it will mak its passenger rates 3 cents per mile on all its passenger lines. Local rates on the Union Pacific main line in Utah and Wyoming will also be reduced to 3 cents a mile. A proportionate reduction will be made in Nevada which will amount to not less than 20 per cent from the present rates.

Rebuilding Could Begin Shortly.

Frank B. Gilbreth, the New York contractor, received word today from Mr. James McLaughlin, his representative, now looking over the field in San Francisco, that in his opinion the rebuilding of the city could begin very shortly.

"The fact that the Chronicle building withstood the earthquake is a strong point in favor of steel construction," said Mr. Gilbreth. "If, however, it had been built of reinforced concrete, it would have escaped without any serious damage from the flames. There is no question in my mind but that the new city will be concrete, and as such it will be as nearly earthquake proof as it is possible for human ingenuity to make it, and absolutely fire proof. From the report received from my engineer, I am convinced that business men and investor can place their money freely in structures of the reinforced and monolithic concrete types and rest assured that they stand in no danger of loss. The catastrophe will rseult in the building of a city not only stable and beautiful, but unique, and it is only a question of time when concrete will be used in all structures which are exposed to fire."—N. Y. Evening Post.

Earthquakes.

Dr. Nakamura, professor of architecture in the Imperial University of Japan, who has been studying the effects of the recent disaster in San Francisco, says, "dishonest mortar, a corrupt conglomeration of sea sand and lime," was responsible for nearly all of the earthquake damage in that city. He further says that while the shake was excited in San Francisco prejudice against brick buildings, brick is very largely employed in Japan, where severe earthquakes are common, but good mortar is used, composed largely of cement, and the bricks are thoroughly wet before being laid.

The divorce suit of James Steward against Ida Steward was dismissed in the Superior Court yesterday. Both parties reside at San Mateo. It is understood another complaint will shortly be filed.

JAPANESE VETERANS ESCAPE

They Are Under Contract with a Mexican Firm in Nogales.

The sheriffs of Santa Clara, Santa Cruz, Alameda and San Mateo counties have been notified by the officers of the Southern Pacific company to be on the lookout for three Japanese, veterans of the Manchurian War, and who, inasmuch as they left their nation under a contract, are illegally in this country. The three little brow veterans made a sensational escape from the custody of the railroad guards by jumping from the window of the swiftly moving southbound trai shortly after leaving Morgan Hill. One of them has since been captured Salinas.

In company with thirty-seven other veterans of the war the three Japanese arrived in San Francisco on the Siberia on the 25th of this month. They left their country under contract with a Mexican firm in Nogales and were to be transported over the South ern Pacific lines through this country to their destination. The railroad company was under $300 bonds for the safe delivery of each man. The train left San Francisco Tuesday, and the men were all herded in one car in charge of half a dozen guards.

At Morgan Hill the train stopped to pass a northbound train. During this time the three Japs who escaped went into the toilet. After the train had gained a momentum of twenty miles an hour they dropped from the window one after the other. Other Japs saw the three escape and fearing that they were hurt told the guards. One of the escapes named Gitaro Myamoto was captured yesterday in Salinas.

Released on Probation.

Peter Dempsey, who was arrested on May 13 and charged with obstructing the tracks of the United Railroads at Holy Cross was brought before Judge Buck Tuesday, and having pleaded guilty was released by the Judge on probation to report on August 9, and if he behaves himself between now and that time he will probably be dismissed altogether. The case against Dempsy was not strong. he having shown no maliciousness in the matter. The facts are: Dempsey and some companions were waiting at Holy Cross for a car to go to the city. One came along but did not stop despite the signals of the waiting passengers. Dempsey, who was intoxicated said, "Well, I'll stop the next one," and rushed out and threw a tie across the rails. His companion picked up the tie and put it back on the pile from which itwas taken. Some official of the railroad company standing near made a report of the occurence, and Dempsey's arrest followed.

The Portola Church Repaired.

The Catholics of Portola have shown exceptional religious zeal recently. That the earthquake stirred them to it they strenously deny. The fact remains, however, that a short time ago they built a sacristy adjacent to the church and after church and sacristy had ben werenched from their foundations by the quake the people gave up their home work and in a few days repaired the damage. Funds for the improvements and repairs were raised partly by the ladies of Portola and Woodside at an entertainment given under their auspices and partly by Mr. Frank Dougherty who kindly volunteered to solicit subscriptions from the parishioners. The ladies who directed the entertainment are: Mrs. N. Hansen, Mrs. T. O'Sullivan, Mrs. Shine and Mrs. Byrnes. The proceeds of the entertainment amounted to $75. As a result of Mr. Frank Dougherty's efforts the sum of $80.50 was subscribed.

Following is a list of Mr. Dougherty subscriptions:

Frank Dougherty	$5 00	Mrs M Doyle	5 00

Marriage Licenses.

The following marriage licenses were issued from the county clerk's office this week: Harry H. Allison and Grace Brady both of San Francisco.

WOODSIDE CHIPS.

School closes today for the regular summer vacation which will no odubt be shorter this year owing to the school's vacation on account of the earthquake.

Geo. Shine is erecting a blacksmith shop on his mother's property fronting on the county road. Geo. is a full fledged mechanic and is desirving of a liberal amount of the public patronage. This is George's first attempt in business but being possessed of the right kind of stuff he will have no trouble in coming out on top.

Another of those enjoyable socials will be given at the hall Saturday evening, June 30. Woodside dances are noted the country over and a big crowd is expected. Jack Wilson w holds the record for fine suppers will be on deck and everything will be made pleasant for all. Be sure and bring your girl or some other fellows.

Edward Batchelder, the popular keeper of the Spring Valley reservoir, has moved to Millbrae where he has secured a better position in the same company. Mr. Batchelder is a very fine citizen and the kind we regret to see depart.

Before another week passes the Fourth will be of the past. This place will be represented at nearly all nearby celebrations. There seems to be nothing much out of the ordinary this year.

Bert Shine is home from St. Mary's from which place he graduated last week.

A baby was born to the wife of John Kelly last week.

Ed Hilderbrand was a prominent town visitor during the week.

HELD ON A CHARGE OF MURDER.

George Jones the Murderer, Was Once a Resident of this City.

George Jones, the burly Kanaka, who is accused of killing Mrs. Elizabeth Brandrup, wife of John Brandrup, at the Linden house last Friday afternoon appeared before Judge Cunningham Thursday for arraignment. He was held on a charge of murder and the time for his preliminary examination is set for next Tuesday morning.

The inquest was held Wednesday. It was shown that the body of Mrs. Brandrup was thrown into a store room at the back of the Linden hotel on June 22. There is a strong evidence against Jones. Room 7 occupied by him adjoins the store room and in it was found Mrs. Brandrups hat, a pair of overalls covered with blood. It is supposed that Jones lured his victim to the room and not submitting to his advances strangled her. Mrs. Brandrup's character is beyond reproach as was shown by witnesses.

The coroner's jury makes no accusation against any person, stating only that Mrs. Brandrup was choked to death by an unknown person possessed of great strength. Wednesday afternoon Elizabeth McDonald, the murdered woman's little daughter, swore to a complaint charging George Jones, in whose room it is believed the killing was done with committing the crime.

Jones was employed at the Capitol hotel some time ago by A. J. Fromm as porter. He also had charge of the boot black stand. He appeared to be a quiet and peaceable citizen, always jovial and glib of tongue. He is a native of Honolulu and a man of intellegence. He likes notority and talks freely to all newspaper reporters

Jones announced yesterday that he would conduct has own defense. He was asked how he would meet certain bits of testimony. Each witness whos statement conflicts with the statements of those whose declarations fav or the defendant has been unhesitatingly pronounced a liar by Jones. The man has been shrewd enough to see two weak places in the prosecution first the testimony of the doctor as to the time of the victim's death and, secondly, the fact that no two witnesses of the prosecution corroborate each other.

Jones has asked permission to have a light in his cell at night so that he may pore over law books and prepare to fight his case. He declares that he will not engage a lawyer, but it is improbable that the court will permit him to conduct his defense.

Extra precautions are being taken a the jail to prevent the escape of the prisoner. Night and day the dilapidated jail building is watched, as the prisoner is regarded as a desperate man who will take any chance to gain his freedom.

District Attorney J. J. Bullock is using all his energies towards securing evidences against the accused. He believes him guilty of the henious crime and will vigorously prosecute.

Daniel Lamont a Rich Man.

Daniel S. Lamont, who was secretary of war under President Cleveland and his private secretary at the time he was Governor, had accumulated a fortune of almost $5,000,000 at the time he died at his country place in Duchess county, N. Y., on July 23 last. An appraisement just made shows his net real and personal property in that state to be $4,458,047.17.

Lamont, at the time he died, had on deposit in banks and trust companies $85,000. Lamont was editor of the Albany Argue when Cleveland became governor of New York, and Lamont was made his private secretary. Lamont was then a poor man.

SCHEDULES AND RATES.

Promotion Societies Confer with tHe Southern Pacific.

The committee representing the promotion societies of the Peninsula, which was appointed at the Redwood meeting several weeks ago to confer with the Southern Pacific officials in regard to train schedules and commuters' rates went to San Francisco Wednesday.

The special subject which was considered was that of rates and schedule after the completion of the Bay Shore cut-off. The committee wished to get an official statement of what may then be expected in the way of reduction of cummutation and a speedier train service.

The committee considers that if it can go to the prospctive commuter with definite information as to these matters, it will stand on a better footing to compete with the cities across the bay in securing new residents from among the homeless of San Francisco.

In the way of temporary relief the committee also urged the adoption of a new schedule including a fast train to leave Palo Alto at 6:40 a. m. and arrive in San Francisco at 7:45 in time for commuters to reach their places of business at 8 o'clock. The committee is a very strong one, the personnel being as follows:

Marshall Black, representing Palo Alto; Geo. C. Ross, Belmont; Charles N. Kirkpatrick, San Mateo; F. H. Thorpe, Redwood A. P. Redding, Menlo Park; Walter A. Clark, Mountain View; J. P. Ponce, Mayfield; F. J. Fewing, Sunnyvale.

The committee was met by Assistant General Passenger Agent Paul Shoup, acting in the absence of General Agent J. A. Horsburgh Jr., who was away from the city, and Mr. Shoup extended every courtesy possible consistent with the interests he represented. Mr. Thorpe acted as spokesman for the committee at the beginning of the conference, which soon lost all formality and the whole situation was frankly discussed and gone over by all parties. Some of the information given by Mr. Shoup was of a more or less confidential nature, but the committee received assurance from Mr. Shoup that the peninsula would receive better train service upon the opening of the Bay Shore cut-off, which will be finished and ready for use by January 1, 1907. Mr. Shoup said work was being rushed on it as fast as the men at their disposal would permit and if they could get them they would put on 1000 more men. The actual saving in mileage will be two and one-half miles and saving in time will be twenty minutes Upon completion of the cut-off a half hour service to San Francisco will be maintained during the morning and a half hour return service in the afternoon. A new time card, which is now being prepared, will make some minor changes in the present service in accordance with the request of the committee, the principle one being a train to arrive at San Francisco at 7:40 a. m. The theatre train will not be put on again for a time, owing to there being no demand for it.

Mr. Shoup said that at this time the company would not consider any discussion relative to rates, so that phase of the matter was left for future discussion, Upon the breaking up of the meeting it was agreed that Mr. Shoup would write Mr. Thorpe, who has acted as secretary of the committee, an open letter, stating officially what the company would be able to do for the peninsula. The members of the committee express themselves as well satisfied with their work, which will do much toward bringing the railroad and this section in closer touch to the mutual advantage of both

Another Manufacturing Concern.
By the terms of a deed to fifty acres of land in this county, which was filed for record last week, the belief is expressed that we are to have another large manufacturing concern located in this county.
The deed in question was executed by G. H. Umbsen & Co., the San Francisco real estate brokers, and conveys to the Selby Smelting and Lead company fifty acres of land near South San Francisco. The Selby company, as is well known, operates an immense smelter near Port Costa, and the fact that the fifty-acre tract has been purchased in this county tends to the belief that they contemplate moving the industry to these parts.
Since the above was put into type the following from the South San Francisco Enterprise gives color of reliability to the prediction:
The Selby smelter people expect to have 1000 men at work within sixty days excavating and building railroads and buildings. In all about ten miles of switches and sidings will be put in. This will require 2000 tons of steel rails. Work will be pushed rapidly in all lines to get the plant in operation at the earlist possible date.

NOTICE TO CONTRACTORS.
Notice is hereby given that the Board of Trustees of the Town of Redwood City invites and will receive sealed proposals up to Monday, the 16th day of July, 1906, at the hour of 8 o'clock p. m. for the furnishing to said Town of Redwood City the following materials, to-wit:

All proposals shall be accompanied by a check, payable to the order of the President of the Board of Trustees of the Town of Redwood City, certified by a responsible bank for an amount which shall not be less than ten per cent of the aggregate of the proposal. Checks of unsuccessful bidders to be returned upon the rejection of their bids. Check of successful bidder to be returned upon the execution of written contract and the furnishing of bond for the faithful performance of contract. Check of successful bidder to be forfeited to said Town of Redwood City if said bidder fails, neglects or refuses to enter into contract and furnish bond, as herein provided.
At time of entering into contract, contractor to furnish a bond to said Town in the sum of one thousand ($1,000) dollars conditioned for the faithful performance of contract; provided that if a separate contract shall be made for the furnishing of the fire hydrants above mentioned, the contractor therefor shall furnish in that case, a bond in the sum of one hundred ($100) dollars.
Written contract to be entered into within five days after award of same.
The Board reserves the right to reject any and all bids.
By order of the Board of Trustees of the Town of Redwood City.
Dated Redwood City, Cal., June 5th, 1906.
DANIEL R. STAFFORD,
Clerk of the Town of Redwood City.

Ordinance No. 207
OF THE COUNTY OF SAN MATEO State of California, prohibiting the bringing of Garbage into the County of San Mateo, State of California.
The Board of Supervisors of the County of San Mateo do ordain as follows:
Section No. 1.
No person, firm or corporation shall from and after the going into effect of this ordinance, bring or cause to be brought into the County of San Mateo, State of California, from any point without said county, and for any purpose, any house, refuse, butchers offal, garbage, refuse, dirt, ashes, cinders, sludge, crockery, tins, bones or other like matter, or putrid vegetable matter, or fish, flesh or food condemned by any Board of Health of any City, County, or City and County.
Section No. 2.
Any person, firm or corporation who shall violate any of the provisions of this ordinance, shall be guilty of a misdemeanor, and such person, the members of such firm, and the officer of such corporation violating the provisions of this ordinance shall upon conviction thereof, be punished by a fine not exceeding five hundred dollars or by imprisonment in the county jail of said San Mateo County, or by both such fine and imprisonment.
Section No. 3.
Ordinance No. 141 of the Board of Supervisors of the County of San Mateo, State of California, passed and adopted the 3rd day of August, A. D. 1897, and all other ordinances or parts of ordinances in conflict herewith, are hereby repealed.
Section No. 4.
This ordinance shall take effect and be in force from and after fifteen days after its passage.
Passed and adopted by the Board of Supervisors of the County of San Mateo, State of California, the 18th day of June, 1906, by the following vote:
Ayes, and in favor of passage of said ordinance, Supervisors, J. Eikgrenkotter, John MacBain, J. H. Coleman, C. J. Coburn, J. Debenedetti.
Noes, and against passage of said ordinance, Supervisors, None.
Absent, Supervisors, None.
J. H. COLEMAN,
Chairman of the Board of Supervisors of the County of San Mateo, State of California.
(Seal of Board).
Attest: H. W. Schaberg, Clerk of said Board.

Through Passenger Trains.
According to announcement made by the Southern Pacific passenger department, the three through trains on the coast line, which have been operated from the Oakland pier since the fire, will be restored to this side of the bay beginning today. The three trains in question are the Shore line limited, leaving San Francisco for Los Angeles at 8 a. m.; the Coaster, which will leave for Los Angeles at 8:30 a. m., and the Sunset Express for New Orleans, which will leave at 5:45 p. m. The three trains will be restored to the schedules that were in effect before the fire and the train service will be come precisely what it was before the conflagration, with the exception of some added trains via Oakland pier.

The Press Association of California.
The following resolutions were adopted by the members of the California Press Association by unanimous vote on board their special train on April 21st, 1906, on the return trip from the City of Mexico:
Whereas, The California Press Association is now nearing home after one of the most interesting and instructive excursions in its history, and which was also one of the most delightful with respect to courtesies extended, facilities provided and place visited—its pleasure being marred only by the great disaster which has just befallen the central coast section of our beloved state; therefore be it
Resolved, That we endeavor to express—in so far as mere words can express—our grateful appreciation of the public spirited generosity, the kind courtesy and the genuine hospitality extended us.
We feel ourselves especially indebted to the railroad companies for providing us with a splendid equipped and ably managed special train, in which we have traveled and lived, not only comfortably but luxuriously, for two weeks, covering a distance of more than five thousand miles, from San Francisco to the City of Mexico and return.
And not only would we acknowledge the public spirit and liberality of the railroad companies, but would extend our thanks personally to the men in charge of our train and to James Horshburgh Jr. and H. R. Braden of the Southern Pacific; John J. Byrne and H. K. Gregory of the Santa Fe; H. C. Archer, general agent of the Mexican Central in San Francisco; J. C. McDonald, assistant general passenger agent in the City of Mexico, and the other officers and agents of the great railway of our sister republic, who so kindly cared for us while we were in the City of Mexico.
We would also thank the Pullman Company and District Superintendent Lincoln of San Francisco for providing us with cars at a very low special rate at a season when they are in great demand.
En route we were provided with delicious refreshments through the thoughtful kindness of various California friends to whom we make grateful acknowledgements: To the Los Angeles Chamber of Commerce, the SanAntonio FruitExchangeof Pomona the Fullerton Fruit Exchange, the the Fruit Association of Redlands, for oranges; for "sweets to the sweets" (candy for the ladies); the American Type Founders; cigars for the gentlemen, Blake, Moffitt & Towne; and prunes for all, the Los Gatos Drying Works.
While in Mexico we were most cordially received by United States Ambassador Thompson, who arranged for our visit to the National Palace and our reception by that gracious gentleman and distinguished patriot, soldier and statesman, President Diaz, a courtesy and an honor we duly appreciate and shall ever cherish. Our thanks are due and are hereby tendered to Ambassador Thompson for his kind offices and to President Diaz for his gracious courtesy.
Among others who extended us hospitality in the City of Mexico were Paul Hudson, president and manager of the Mexican Herald; Manager Barrett of the Evening Record; W. L. Vail, a former California newspaper man, now engaged in the banking business in Mexico, and Orrin's Circus
To all of these individuals, companies and institutions, and to others whom we may be indebted, but who are not mentioned here, we give sincere thanks.
Resolved, That these resolutions be spread upon the minutes of the Association, that engrossed copies of them be sent to Ambassador Thompson and to President Diaz, respectively and that copies be sent, with request for publication, to the newspapers of the City of Mexico and to members of this Association.
Whereas, A great disaster has befallen the city of San Francisco and the central coast section of our beloved state,
Resolved, That the California Press Association and the individual members thereof tender to the stricken cities and towns and the inhabitants thereof our sincere sympathy; and that we pledge them our hearty support in the heroic efforts which we are confident they will make to restore order, resume business and rebuild larger and better than ever.
Whereas, It has been the annual custom of the California Press Association to make visits to the various points of interest on the American continent:
Resolved, That President Friend W Richardson and Secretary R. H. Jury, together with the members of the Executive Committee of our Associatic builded better than they knew in selecting forthe jaunt of the year 1906 the beautiful and historic City of Mexico with its surrounding wonderlands. It is an evident fact that a trip beyond the confines of the United States entails unusual effort. The securing of the splendid concessions from the three railroad companies over whose lines our journey took us, the Southern Pacific, the Atchison, Topeka & Santa Fe, and the Mexican Central, and the arrangements of the numerous details was an undertaking that called for weeks of untiring energy tightly directed. While we are now returning post haste on a sorrowful mission, we cannot fail to express in this feeble way our deepest appreciation of the untiring, painstaking and splendid efforts of our president and secretary to make the trip to Mexico one long to be remembered. Notwithstanding the fact that our president has for much of the time been ill he has never failed to look out for the interests and comfort of the members of the party.
When the sad news of the catastrophe on the Pacific Coast reached us despite the fact that it appeared that the relatives and property interests of both of these gentlemen were in the stricken district, they laid aside all thoughts of self and did all in their power to comfort the members of the party and prepared fora hasty but comfortable journey home. Be it further
Resolved, That through the splendid efforts of President Richardson and Secretary Jury our excursion has been a most pleasant and profitable one, and to these meritorious gentlemen all praise is due.
The members of the California Press Association, en route homeward from their delightful journey to the City of Mexico, would count themselves denied one pleasure, were they not permitted to personally express their appreciation of the constant effort on the part of H. Robert Braden, the special representative of the Southern Pacific Company, who assisted in planning the trip, and accompanied the party through this wonderland of the Western hemisphere, whose ruins and mute carvings on the imperishable rocks tell of a civilization that, both in age and in development, may have rivalled that which flourished by the Euphrates or the Nile.
Mr. Braden's knowledge of Mexico, which was always at our service, his never failing courtesy, and his unnumbered personal kindnesses to every member of the party along with the rich field to which he led us, combine to make the trip not only one of pleasure but of education and information, the value of which will grow with the passing of the years.
And so highly do we appreciate his services, thus so kindly and so cheerfully performed, that we ask him to accept this as a personal testimonial from every member of the California Press Association's party to Mexico.
Signed—J. P. Baumgartner, Will N. Speegle, J. B. Sanford, Wm. E. Mackenzie, R. C. Harbison, Committee.
Attest: Friend W. Richardson, President. R. H. Jury, Secretary.
